

AN ENGINEERING WITH NATURE®
SYMPOSIUM

NATURAL & NATURE- BASED FEATURES

20 SEPTEMBER 2018

UNIVERSITY OF CALIFORNIA SANTA CRUZ

Experts from around the world will discuss the challenges and opportunities of designing, implementing, and maintaining nature-based features in conjunction with flood risk reduction measures. Join us to share, learn and advance science and engineering practices that support the use of natural and nature-based features. *Agenda, logistics, and registration available on website below.*

RSVP by 14 September.
